Select your Training Batch *

B8-2A4E

Recurrent neural network is suitable for *1/1

- ☒ Sequential data
- ☐ non-sequential data
- ☐ both
- ☐ none of the above

LSTM neural network comes under *1/1

- ☐ ANN
- ☒ RNN
- ☐ CNN
- ☐ None of the above

what is bag of words in nlp *

1/1

- ☒ Technique of text modelling
- ☐ Classifies images
- ☐ Voice recognition
- ☐ None of the above

which of the following is an ibm *1/1
cloud service

- ☐ IBM watson
- ☐ IBM NODRED
- ☐ AUTO-AI
- ☒ ALL

what is the use of NLTK *

1/1

- ☒ NLTK is a toolkit build for working with NLP
- ☐ NLTK is a toolkit build for working

For what RNN is used and achieve the best results?

*1/1

- ☐ Financial predictions
- ☒ Handwriting and speech recognition
- ☐ Speech and images recognition
- ☐ Handwriting and images recognition

RNN remembers each and every information through_____.

*1/1

- ☐ Work
- ☒ Time
- ☐ Hours
- ☐ Memory

_____occurs when the gradients become very small and tend towards zero.

*1/1

_____occurs when the gradients *1/1
become very small and tend
towards zero.

- ☐ Exploding Gradients
- ☒ Vanishing Gradients
- ☐ Long Short Term Memory Networks
- ☐ Gated Recurrent Unit Networks.

Flask is a web development *1/1
framework created in _____
language

- ☐ C
- ☒ Python
- ☐ Java
- ☐ Javascript

What is WSGI? * 1/1

- ☒ Web Server Gateway Interface
